Debate over Bill Maher

Sorry, I stopped listening to him when he not only used, but refused to swiftly apologize for particularly gutter-level sexist slang to describe the now former governor of Alaska. It doesn't matter what one thinks of his political views, but if I want some balance in my political punditry I can find plenty other places to get it.

I cannot understand why responsible left-leaning women would be upset over [Mitt] Romney's "binders full of women" comment while having done nothing to censure Maher for his misogynist language.

Hypocrisy is the left's stock in trade. There is no room for Maher's language in our political discourse.
